## SERVICE PRO® AUTOMATIC TRANSMISSION FLUID MULTI-PURPOSE ATF

**DESCRIPTION:** SERVICE PRO® Automatic Transmission Fluid Multi-Purpose ATF is a new generation automatic transmission fluid recommended for use in automobile and truck automatic transmissions, power-shift transmissions and other types of service requiring an approved and licensed GM Dexron® III "H" or Ford Mercon® automatic transmission fluid (also exceeds the requirements of Dexron®-IIE, IID and II specifications).

SERVICE PRO® Automatic Transmission Fluid Multi-Purpose ATF is also approved for industrial transmission requirements such as Allison C-4, Caterpillar TO-2, Ford specifications M2C138-CJ and M2C166-H, and is recommended for Mercedes Benz automobiles. Recommended for use in GMC, Allison, Sunstrandt and Eaton transmissions requiring a Dexron®-III or C-4 fluid. This fluid has excellent low temperature flow characteristics and offers outstanding resistance to oxidation, rust and corrosion, resists foaming, aeration and excessive thinning at high operating temperatures. This fluid is dyed red for easy identification.

SERVICE PRO® Automatic Transmission Fluid Multi-Purpose ATF is not for use in transmissions requiring Ford Type F fluid.

**PERFORMANCE  
BENEFITS:**

- Excellent low temperature fluidity for good cold-start shifting
- Resistance to foaming
- Oxidation and thermal stability for long life
- Protection against rust, corrosion and wear
- Multiple approvals for lower inventory requirements
- Compatible with all transmission seal material

**TYPICAL  
PROPERTIES:**

Appearance	Red, dyed
Viscosity	
@ 40 Deg. C, cSt	37
@ 100 Deg. C, cSt	7.2
@ 100 Deg. F, SUS	164
@ 210 Deg. F, SUS	49.7
@ -40° C, max	20,000
@ -20°C, max.	1,500
Viscosity Index, min.	161
API Gravity	30
Sp. Gr. @ 60°F	0.8762
Flash, COC, °F	378
Pour Pt. °F	-50
Service Pro Part #	16693
